For the quarter under review, the Group recorded a 2.74% increase in revenue to RM 91.73 million compared to RM 89.29 million in the corresponding quarter of the previous financial period. The increase was driven by higher sales volume despite a lower average selling price.

The Group's profit before tax ("PBT") increased to RM 2.0 million from RM 1.13 million in the corresponding quarter of the previous financial period, representing an improvement of RM0.87 million. The increase was mainly driven by an improvement in gross profit margin ("GPM"), which increase from 7.27% to 8.62%.

For the nine months period under review, the Group recorded a 3.04% increase in revenue, equivalent to RM 7.84 million compared to the same period last year, mainly driven by higher sales volume. The Group's profit before tax ("PBT") increased by RM 3.27 million compared to the corresponding period of the previous financial year following an improvement in revenue and gross profit margin ("GPM").

B. EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA SECURITIES (CONT'D)

B2. Comparison with immediate preceding quarter's results

	Current Quarter 01.07.2026 to 30.09.2026	Immediate Preceding Quarter 01.04.2026 to 30.06.2026	Increase/ (Decrease)

Compared with the immediate preceding quarter, the Group's revenue for the current quarter under review decreased by 1% from RM 92.94 million to RM 91.73 million. The decrease in revenue was mainly attributable to slight decline in both sales volume and average selling price.

As a result, the Group's profit before tax ("PBT") decreased from RM 2.31 million in the immediate preceding quarter to RM 2.00 million in the current quarter under review.

B3. Prospects and outlook

The outlook for Malaysia's steel industry remains cautiously positive, supported by ongoing infrastructure development and continued construction-related activities. Budget 2027 further supports this outlook through sustained public infrastructure spending, which is expected to contribute to steel demand.

Despite these supportive factors, the domestic steel industry continues to face a challenging operating environment, driven by fluctuations in steel and raw material prices, global oversupply and uncertainties in the global economic environment. These factors are expected to continue influencing steel prices, profit margins and industry performance.

In response, the Group will continue to prioritise prudent cost management and operational efficiency enhancements across its manufacturing facilities to improve productivity, mitigate cost pressures and sustain its competitiveness.

Barring unforeseen circumstances, the Group is cautiously optimistic that it will continue to generate satisfactory performance for the financial year ending 31 Dec 2026.

B4. Profit Forecast or Profit Guarantee

The Group did not issue any profit forecast or profit guarantee during the current financial quarter under review.
